# HOW IT ALL STARTED

2015

## Inception of UHF

UHF Solutions was created with the vision of making IT easier for individuals, small companies, and large enterprises in a wide range of sectors. Industries in Pakistan.

## Year of Enthusiasm

We succeeded in onboarding automobile firms. We provided them with customized and personalized IT solutions for their problems, resulting in 50% customer satisfaction.

2016

2018

## Year of Excellence

We succeeded in capturing the Banking industry. We offered solutions for their IT obstacles, including Salesforce, Email, CRM, and ERP solutions.

2020

## Year of Survival

Surviving was hard for many organizations in 2020 due to the pandemic. However, with the immense efforts of our warriors, we were able to sustain ourselves in the industry.

## Year of Growth

- | We have established a range of products, including Khizar, Asan Car, Hukum Sarkar, Salesforce, and others, to give our clients a better and more convenient experience in their IT journey.

2021

2022

## Year of Expansion

- | We succeeded in enhancing our services and offering our customers a better, wider, and more convenient experience with our IT solutions and products.

2023

## Year of Persistent Work

- | Our team consistently pushed boundaries, achieving remarkable milestones through our unwavering dedication.

2024

## Expansion to UAE

- | With our presence in **DIFC**, we're offering our services in a new region to help digitize organizations and improve businesses

# OUR STRENGTH

## High-Quality Services

We have a team of experienced and skilled professionals who are able to deliver high-quality solutions that meet your business requirements.

## Strong After-Sales Support

We provide comprehensive after-sales support to ensure that the implemented solutions are working smoothly and effectively.

## Technical & Customer Support

We have a deep understanding of the latest technologies and trends and can provide your organization with solutions that are both effective and efficient.

## Customized IT Solutions

We are able to adapt to the changing needs of our clients and will be able to provide custom solutions that meet your specific requirements.

# OUR STRATEGY

## Innovation

We foster a people-centered culture that promotes innovation. Our team designs innovative solutions by integrating extensive data collection, qualitative research, and valuable input from every stakeholder in our client's organization.

## Modernization

We gear towards IT modernization by moving away from old solutions and legacy systems and consolidating systems and workflows in favor of more automated, innovative solutions.

## Digitalization

We transform traditional processes by using digital technologies to change a business model and provide new revenue and value-producing opportunities. Our team uses modern technology to make business processes faster, more efficient, and more accurate.

## Augmentation

We are proficient in all aspects of software product development, including design, engineering, quality assurance, manufacturing, marketing, sales, distribution, and installation. We aim to provide our clients with the best solutions, as per their requirements.

# OUR CULTURE

At UHF Solutions, we focus on team development by fostering an inclusive and collaborative work environment that inspires innovation, drives excellence, and pushes our team to unlock their true potential. Our youth-friendly workplace environment fosters and provides opportunities for learning, growth, and well-being of the team.

## EMPLOYEE ENGAGEMENT

- | UHF Solutions believes in recognizing, engaging, and celebrating our team for their endeavors and providing opportunities for advancement. This is done via rockstar of the month, allocating more appraisals and allowances, gaming events, and more!

## GIVING BACK TO THE SOCIETY

- | UHF Solutions strongly believes in giving back to the society as a moral duty to help those in need via CSR initiatives such as cleanliness drives, collaborating with charity organizations, and more.

# • OUR SDG'S

## Sustainability

Our company promotes sustainability through automation and reduced paper usage, offering eco-friendly software solutions and advocating for remote work to minimize commuting and carbon footprint, aiming to inspire a greener future.

## Diversity

We prioritize diversity, empowering employees to reach their potential through training programs, fostering connections, and driving our company's success by doing right by all.

## Giving Back To The Society

We actively engage in community initiatives, including blood donation drives, support for underprivileged children through donations to NGOs, and promoting environmental sustainability through local dustbin installations, aiming to make a positive societal impact.

# 2018 SUCCESS STORY

Meezan Bank came up with a problem statement to which we had the perfect solution. It was to track the non-financial growth of the salesforce as there was a minimum record of their efforts.

UHF Solutions offered a BDO Sales App to solve their obstacles. It helped them in monitoring, their non-financial goals by automating their entire sales journey and empowered the salesforce to generate more revenues.

To start off, we had a 60-day POC, and we achieved the desired objectives, won the project, and are here with a prominent growth of 30% financial targets.

**Meezan Bank**  
The Premier Islamic Bank

**2019**

## **SUCCESS STORY**

As we call it - The 100 Day Project is one of our most successful projects in Meezan Bank. Financial reporting was a hassle - handling multiple reports, client details, and financial tracking. Meezan had its hands full with manual work.

360 Degree enabled them to access the luxury of viewing their entire financial reporting in the palm of their hands. This app automated their financial reporting and brought it on a single platform, reducing their human dependency. The margin of error improved efficiency and enabled them to track and monitor their financial numbers conveniently.

**2020**

## **SUCCESS STORY**

With Covid-19 at its peak, many banks had employees working from home. Agents could not communicate with the clients with their official numbers which created trust issues and barriers between the bank and the clients.

UHF Solution's Calling App helped the bank agents to call and communicate with the clients via Meezan Bank's official landline number and that too, from the comfort of their own homes.

**Meezan Bank**

## 2021-2022 **SUCCESS STORY**

4 projects were awarded to us simultaneously that were successfully deployed. Personal Banker App Relationship managers had to make a ton of manual efforts to get the results they desired and this solution can minimize their efforts by automating the tasks. It helped maintain track records, automate reporting, and reduce the risk of error. With the time saved, they can now work on the analytical tasks to improve their overall performance.

Falcon Plus—Survey Management Tool Managing the quality assurance of every branch was a bit challenging. UHF Solutions introduced Falcon Plus, a survey management tool that helped operatives conveniently survey every branch and ensure its quality was maintained. This helped Meezan Bank enhance its quality assurance and result in better outcomes.

The Premier Islamic Bank

# 2021-2022 SUCCESS STORY

## Email CRM

With the massive number of emails barging in every day, it was difficult for operatives to manage, prioritize, and reply to queries in a timely manner. UHF Solutions introduced an Email CRM for Meezan Bank that helped them prioritize and manage emails with respect to trend analysis and sentiment analysis. This solution will help them prioritize important emails and respond to them in a timely manner.

## Infosec – ISMS

Being a large enterprise, it was challenging for Meezan Bank to manage all the information manually. Information pertaining to the observations and vulnerabilities in projects, systems, and ATMs was being managed manually, with high human dependency and a high risk of error. The solution helped them with data management, tracking, and traceability and ultimately resulted in achieving their desired outcomes.

All the above-mentioned projects were highly successful and within the span of 3 years. As Meezan Bank partnered with UHF Solutions, they have doubled their deposit effectively, and we wear that badge with honor!

We are proud to be one of their top vendors and are looking forward to continuing this relationship and building a longer success story with them.

# PORTFOLIO

The solution includes a mobile app for field sales with GPS tracking and a web app for managers to monitor and report. The goal is to improve sales efficiency, cost optimization and decision making for UBL users.

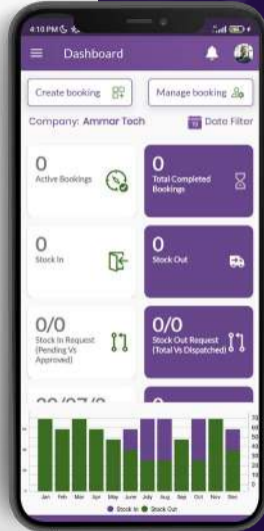

A web / Mobile app-based Solution will help gather the personal data of the Dealership owner and employees, along with the Sale and purchase of inventory/stocks/parts. Phase 3 - A web/ Mobile app-based Dealer Ship Management system developed for Atlas Honda Ltd. will organize customers' visits and track the records for the first free service, second free service, Parts sales, and Purchases, etc.

A web/mobile-based solution to provide automation and digitation in the Warehousing Sector, Vendor onboarding, and Warehouse booking. The Solution specializes in digitizing the entire spectrum of commercial warehousing and micro-space management, making it convenient for customers to book spaces and manage inventory. It also ensures that every vendor listed on the platform goes through a thorough vetting process, allowing customers to rest assured that their goods are in safe hands.

The project involves developing a 360-degree dashboard for Toyota to track the customer journey and identify gaps in customer retention. This unified platform will integrate all existing databases at Toyota IMC. Raw data will be transformed into data lakes and cubes and tracked using a unique ID to monitor all customer transactions. Stakeholders will have real-time access to consolidated data through visual dashboards, enabling better business decisions, identifying and reducing leakage, and generating sales leads.

A mobile application on both platforms for fitness gym trainers that helps them record their training sessions is integrated with i-Watch and Fit-Bit gadgets. Planet Beach, which operates one of the largest gym chains in the USA, uses the app.

The scope of the project is to design and develop a Multi User Mobile Application, centered to Car Brokers, Dealerships and Consumers within the United States with a detailed Web Application/Portal to manage back-end functionalities and operations.

# OUR PRODUCTS

## Banking Solutions

---

Salesforce

**Salesforce** Digital App is a worthy solution for banks. The objective is to eliminate manual documentation and automate the sales hierarchy and the work of people on the field.

Our **Email CRM** App has addressed the issues of lost, late, and prioritized emails, among other things. It's designed to streamline communication for business and customers ensuring user management, auto-routing emails, client profiling, sentiment analysis, integrations and more.

**360 Retail Banking** App is an entire banking solution in the palm of your hands. It was created exclusively for the banking sector, and it offers 360-degree reporting and tracking of all customers and employees. It represents the 10 KPIs important for the banking sector to improve decision-making and operations.

# OUR PRODUCTS

## Non-Banking Solutions
